

Yea and District Children's Centre works underway

Works have begun on the much-anticipated redevelopment of the Yea and District Children's Centre.

Murrindindi Shire Council Cheviot Ward Councillor Rebecca Bowles said this Project is an important investment in the future of the Yea community.

"Population trends indicate significant growth in Yea over the coming years and Council is committed to ensuring the best possible services and infrastructure are in place to support the community's development," Cr Bowles said.

"Alongside funding from the Victorian Government Children's Facilities Capital Program and Uniting, Murrindindi Shire Council has supported the design and redevelopment works of the Centre and its site.

"The works are scheduled for completion before the end of the year," Cr Bowles added.
