Resource Recovery Centre Disposal Prices

Within the Shire of Murrindindi, residents and non-residents can utilise the services provided by five Resource Recovery Centres (RRCs, previously known as transfer stations). For those residents who are not located within an area serviced by our kerbside garbage/recycling collection, Resource Recovery Centres (RRCs) are the primary solution for waste disposal. Council operates RRCs in Alexandra, Yea, Kinglake, Eildon and Marysville.

Resource Recovery Centre Opening Hours

	Alexandra	Yea	Kinglake	Eildon	Marysville
Monday	10.00am–noon				1.00–3.00pm
Tuesday		10.00am–4 pm		10.00am–1.00pm

Tyres on rim or dirty tyres	✓	✓	✓	✓	✗	Double the clean tyre only price.	

\# Fees are differentiated between waste from within Murrindindi, generated by residents and businesses from Murrindindi versus waste generated outside of the shire and brought into the shire (Non-Murrindindi).

* A maximum of $1m^3$ of commercial waste will be accepted at RRCs. All loads exceeding $1m^3$ will be directed to dispose directly into landfill.

** A maximum of $3m^3$ of municipal/residential waste will be accepted. All loads exceeding this limit will be directed to dispose directly into landfill.

*** All green waste disposed at Council's RRCs is processed into a coarse grade mulch that can be collected from the RRC free of charge by any ratepayers or local businesses (on availability). Council does not warrant the quality of the mulch - it is an uncomposted woody mulch and may contain live weeds, weed seeds and litter.

**** No gas bottles larger than a 9kg BBQ size, including domestic size LPG bottles, vehicle gas tanks, and tanks for industrial gasses.

Unacceptable Waste at Council's RRCs:

- Loads of unrecyclable material exceeding $3m^3$
- Asbestos
- Chemicals and solvents
- Prescribed waste
- Hazardous or contaminated waste (including medical waste and syringes)
- Dirty chemical containers – all containers must be triple rinsed and will be checked for residue.
- Any liquid waste except motor oil

Where can I dispose of unacceptable wastes?

Asbestos:

For more information on asbestos disposal, and a full list of certified licensed asbestos removalists can be found on our website https://www.murrindindi.vic.gov.au/Your- Property/Garbage-and-Recycling/Waste-Disposal-Facilities#section-7

Chemicals and solvents:

Sustainability Victoria runs the Detox Your Home program which arranges permanent and event based collections of household chemicals at locations throughout Victoria. Unfortunately they do not offer a collection in Murrindindi – the nearest collection points are event based collections in Coldstream and Seymour. For further information visit: https://www.sustainability.vic.gov.au/detoxyourhome

Syringes:

Council offers a free disposal service for used hypodermic needles and syringes. Contact a Council office to obtain a sharp safe container. Once the container has been filled, it can be returned and swapped for another. This service is not available to commercial operators.

For further information contact Council's Environmental Health unit on (03) 5772 0333.

What can I do to make my waste drop off as easy and efficient as possible?

Sorting your load out when loading your trailer can help you to save time when you reach your local RRC, but it can also **save you money.** As quite a number of recyclable items can be dropped off free of charge, if these items are sorted into separate piles in your load, they are easily identifiable and measurable by our RRC operators.
